1. And this is how it always goes.

The rendering of someone

As “less-than” always, inevitably

Accelerates from tolerance

To sufferance, to time-limited,

To detained and then deported;

Shifts rightwards, so that

The march against “illegals”

Delivers next a speech about

“Indefinites”, and the hedge-funder

Of the people says

He is “firmly of the belief

with research backing it up “

That he can shit from his

Sweaty , acned hemorrhoidal arse

Whatever bullshit he thinks fit

And never be called out.

2. Always outflank/ and raise the stakes/the “patriotic ” education policies/ and permanent school exclusions /and tax relief for private schools/ and all job seekers must find employment within 4 months otherwise benefits will be withdrawn /and High Intensity Training Camps for young offenders /and vouchers for private healthcare treatment /and make it easier to hire and fire/ so that businesses can grow/and abolish the Renters’ (Reform) Bill/ all pass unexamined /so long as/ the son /of stockbroker Guy Justus Oscar/ Dulwich College pupil/ commodities broker / millionaire / Farage Family Educational Trust 1654 tax dodger / Hitler Youth songster/ ordinary bloke/ stamps his handmade Jeffrey West shoes /hard on the face of

the immigrants “coming to take us over. “/ Mosley in Union Jack socks/ an alcoholic Arnold Leese/ Tyndall without the temperance or the frigidity/ singing siren songs of repatriation and resentment/that echo down from Powell and Webster to the constituents of a near –absent MP strolling near the bright blue roll of Martello Bay
